[Docket No. CP22-42-001]

Northern Natural Gas Company; Notice of Application Requesting an Amendment to Certificate of Public Interest and Necessity

Take notice that on March 14, 2023, Northern Natural Gas Company (Northern), 1111 South 103rd Street, Omaha, NE 68124, filed an application pursuant to Section 7 of the Natural Gas Act (NGA) to amend the certificate issued on December 7, 2022, authorizing Northern to: (1) abandon in-place approximately 82.70 miles of 20-inch-diameter A-line and appurtenances in Boone, Webster, Wright, and Hancock counties, Iowa; and (2) install the approximately 6.04-mile extension of its 30-inch-diameter D-line extension and above-ground facilities, all with appurtenances, in Wright County, Iowa, all as more fully set forth in the request, which is on file with the Commission and open to public inspection.

Specifically, Northern has determined based on the hydraulic analysis, that existing capacity demands on the existing pipeline system can be adequately met by reducing the length of the proposed D-line Extension to 1.51 miles. In addition to reducing the length of pipeline, Northern is no longer proposing to install a pipeline inspection gauge (pig) receiver and mainline valve site (or associated permanent access roads) at the end of the mainline extension. The pig receiver and mainline valve site are no longer required due to the proximity of the existing upstream mainline valve. The D-line Extension will be directly interconnected with the existing IAM60603 C-line.

Pursuant to Section 157.9 of the Commission's Rules of Practice and Procedure,¹ within 90 days of this Notice the Commission staff will either: complete its environmental review and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or environmental assessment (EA) for this proposal. The filing of an EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.
